III. Project Details

Project Description

The Province of Maguindanao is one of the local government units (LGUs) in the Autonomous Region of Muslim Mindanao (ARMM). It is composed of one independent city and 36 municipalities.

As provided in the Muslim Mindanao Autonomy Act No. 25, local chief executives (LCEs) play a critical role in managing local development and delivering of public services to their constituents. Thus, the ARMM Department of the Interior and Local Government (DILG) acknowledges the need to strengthen the leadership capabilities of LCEs to ensure that the local government mandates are performed efficiently and effectively.

In this context, that the Development Academy of the Philippines' (DAP) Center for Governance is proposing a leadership training for LCEs from Maguindanao to be identified by the DILG.

Project Objectives:

The proposed intervention will enable selected LCEs to:

1. Surface the current behavioral patterns of members and organizational culture of their respective Local government;
2. Deepen their understanding of good governance concepts, principles and practices;
3. Be more aware of their roles and responsibilities as chief executive and leader in their localities, including the core competencies they need to possess and develop to better perform their functions; and
4. Formulate an action plan outlining concrete actions that will be pursued to strategically direct and manage the local government.
